Experience

Senior UX Designer   *Remote*
Steelcase   *Jul 2021 - Present*

- Leading high impact innovations in B2B & B2C digital customer experiences, solving user problems through the lens of design thinking, coupled with explorations of technology and key requirements for business success.
- Organized user research workshops for high profile clients and strategized innovation themes for the company, working with multiple VPs.
- Building product roadmaps and defining OKRs, working closely with the Executive team.
- Envisioned a Configurator tool driven by generative design and data models, allowing users to make quick changes to 3D models. Spearheaded the $500k project from initial concept to pilot, scheduled to be launched in Q4 '22.
- Heading product delivery and launch, collaborating with data analysts and software engineering teams.
- Architecting end-to-end customer user experience for in-person sales tour, working in an Agile team.
- Increased user efficiency by 50% using a Dynamic Recommendation System for Planning Ideas page.

UX/ Visual Designer   *San Jose, California*
Code for San Jose   *Mar 2021 - Jul 2021*

- Developed end-to-end user experience for residents applying directly and through a community based organization (CBO) for CiviForm- a City of Seattle assistance program. Working on elegant design solutions that perform appropriately and scale gracefully across web & mobile.
- Defined accessibility requirements for key pages, designed UI mockups, coordinate interface solutions with engineers & project managers.

Designer II   *San Francisco, California*
Solomon Cordwell Buenz   *Jan 2020 - Jul 2021*

- Employed a systematic approach to solving complex concept-driven projects & ideate innovative ways to simplify solutions to maximize usability, efficiency, and satisfaction of clients. Collaborate cross-functionally with engineers and consultants to meet tight deadlines.
- Communicate and inform project team members throughout all stages of design, for delivering $19M Oakland and $5M Hawaii projects.

Designer   *Chicago, Illinois*
CallisonRTKL   *Jul 2018 - Dec 2019*

- Designed projects in commercial sector, experimented with 3D modeling & AR/VR for visualization of domestic and international projects.
- Established electronic rendering team for quicker, better renderings- decreased rendering budget by 75% and cut turnaround time by 30%.
