## EDUCATION

### STANFORD GRADUATE SCHOOL OF BUSINESS

Stanford, CA

MBA Candidate

2024-2026

- Active member of the Tech, AI and Product clubs

### UNIVERSITY OF MICHIGAN

Ann Arbor, Michigan

Masters in Architecture (STEM)

2016-2018

- Awarded the Wheeler Memorial Scholarship, 1 of 10 students per cohort
- Graduate Student Instructor for **Structural Engineering**, taught a section of 40 undergraduate students over one semester

### ANNA UNIVERSITY

Chennai, India

Bachelors in Architecture (STEM)

2011-2016

**PROFESSIONAL DEVELOPMENT:** UC Berkeley UX/UI bootcamp, Stanford University Product Management Fundamentals

## PROFESSIONAL EXPERIENCE

**STEELCASE** (Fortune 500 home and office furniture manufacturer with \$3.2B in annual revenue)

San Francisco, California

### Product Manager

Jul 2021 – Aug 2024

- **Drove 0 to 1 development** of an industry-first Configurator tool leveraging AI & ML, revolutionizing the online furniture buying experience. The Configurator tool is estimated to increase annual sales revenue by \$100-\$150M
- Partnered with the CTO and VP of Digital Experiences to lead Steelcase's post-pandemic digital transformation from a physical product-first company to a digital experience leader in the furniture industry
- Launched a suite of digital products (sales enablement tools, customer experience platforms, B2B and B2C website enhancements) through cross-functional collaboration with engineering, UXR, UED, analytics, marketing and CSMs
- Awarded Special Recognition from CEO for transforming company's UXUI practice, ranking in top 1% of global workforce

### User Research & Design

- Identified the need for configuration capability through 20+ user interviews and live prototyping sessions with customers
- Designed and implemented a user-centered approach for the Configurator tool, which increased user satisfaction by 30% and reduced time-to-configure by 40%
- Facilitated 10+ discovery workshops for high-profile customers across North America and Canada: working closely with company CEOs, translated insights into a prioritized roadmap that supported strategic business goals
- As a Founding member of Steelcase IT DEI team, designed and launched IT DEI website in Oct '22 to promote inclusivity

### Product, Strategy & Feature Roadmaps

- Formulated and implemented 5-year digital product strategy and roadmap in collaboration with VP of Digital Experiences
- Integrated Agile frameworks (Scrum sprints) to drive prioritization and feature development, collaborating with engineering and external partners to enhance digital product portfolio

### Go-to-Market Strategy & Launch

- Spearheaded \$500K Configurator pilot in Q3 '22 collaborating closely with the Steelcase CTO, marketing team, data analysts and software engineering teams; achieved 200+ user adoption within 3 months and attained 90% user satisfaction
- Enabled successful product launch on Steelcase.com in Q1 '24 by analyzing user survey data from the pilot, providing a comprehensive evaluation, and recommending key product enhancements prior to launch

### Metrics & Data Analysis

- Implemented A/B testing methodologies to optimize user engagement, resulting in a 25% increase in Configurator usage
- Analyzed user behavior across 10 product features with Amplitude, providing benchmarks for ongoing product development

**SOLOMON CORDWELL BUENZ** (Top 10 U.S. architecture and design consultancy firm)

San Francisco, California

### Designer II

Jan 2020 – Jul 2021

- Employed a systematic approach to complex architectural projects; collaborated cross-functionally with engineers
- Delivered \$19M Oakland and \$5M Hawaii projects engaging project team members throughout all stages of design

**ARCADIS** (Global design and engineering consultancy firm with \$4.15B in annual revenue)

Chicago, Illinois

### Designer I

Jul 2018 – Dec 2019

- Designed buildings in the commercial sector, experimented with 3D modeling and AR/VR for visualization of projects
- Established digital rendering team for quicker renderings; decreased rendering budget by 75%, cut turnaround time by 30%

## ADDITIONAL

**Community:** University of Michigan (Panelist/ Mentor), Code For San Jose (UX Design Volunteer)

**Technical Skills:** Data Analysis, SQL, Data Visualization, Business Intelligence Tools, API Integration, JavaScript, HTML, CSS

**Tools:** JIRA, Figma, Excel, Adobe Creative Suite, Miro, Mural, Google Analytics, Tableau, Microsoft Office Suite, Asana
